NGUYEN PHUC THINH

Intern Front-end Developer

District 7, HCMC • ☎ (+84) 971221156 • <u>thinhpx33@gmail.com</u> • <u>LinkedIn</u> • <u>Portfolio Website</u>

SUMMARY

Passionate software developer with a strong foundation in front-end development and experience in teaching web programming. Eager to leverage skills in ReactJS, Agile methodologies, and problem-solving to contribute to innovative projects.

EXPERIENCE

MINDX TECHNOLOGY SCHOOL   Phu My Hung, District 7
Coding Instructor   June 2023 - Present
- Taught web programming classes for high school students, focusing on HTML, CSS, and JavaScript.
- Taught Python for data structures and algorithms, emphasizing problem-solving techniques and computational thinking.
- **Skills Gained**: Teaching, strong foundation for Web and Python programming, and problem-solving.

PROJECT

MOVIE-STREAMING - *Personal Project*   Sept - Nov 2024
- **Description:** Developed a responsive movie streaming application using React and Tailwind CSS. The application allows users to browse and search for movies, view movie details, watch trailers, and stream movies.
- **Technologies:** React, TailwindCSS, React Router, Lazy Load Component, React Loading Skeleton.

Github link: <u>Github</u>— Demo link: <u>Movie-Streaming</u>

PHONE STORE POS SYSTEM - *Personal Project*   Oct 2023 - Jan 2024
Role: Full-stack developer
- **Description**: Developed a web-based Point of Sale (POS) system for managing phone sales. The system allows admin users to manage staff, products, customers, and process sales transactions. The website provides a comprehensive solution for phone store operations, built using modern web technologies.
- **Technologies**:
  - Front-end: ReactJs, CSS, Bootstrap, React-Bootstrap.
  - Back-end: NodeJs, JWT (JSON Web Token), MongoDB, Nodemailer, Mongoose.

Github link: <u>POS</u> — Demo link: <u>POS</u>

EDUCATION

TON DUC THANG UNIVERSITY   Oct 2021 - Now
Bachelor of Software Engineering   Graduation Date: Oct 2025
GPA: **3.2/4**

SKILLS

Front-End Development:
- HTML5, CSS3, JavaScript, TypeScript.
- ReactJS, TailwindCSS, Responsive Design, Bootstrap
- Experience with modern front-end frameworks and libraries

Back-End Development: Node.js, MongoDB, Firebase, MySQL, Understanding of RESTful APIs and JSON.

Soft Skills:
- Strong foundation of data structures and algorithms, OOP.
- Strong problem-solving and critical thinking abilities
- Excellent collaboration and teamwork skills
- Ability to learn quickly and adapt to new technologies
- **English:** Intermediate - Strong communication skills
